Secretary McAdoo Arranges to Deposit That Amount With National Banks for Use in the West and South

WASHINGTON, July 31.—Twenty-five to fifty million dollars of government funds will be deposited in the national banks of the south and west at once by Secretary McAdoo to facilitate the movement of crops. Federal, state and municipal funds and prime commercial paper will be accepted as security for the money, on which the banks will pay 2 per cent interest. The motive of Secretary McAdoo in establishing this policy is to anticipate the money stringency in the late summer and fall, which invariably accompanies the marketing and movement of crops, especially when they are unusually large, as the harvest now beginning forecasts. He intends to take time by the forelock and prevent or minimize the usual tightness of money.

In a statement tonight the secretary stated the deposits among the smaller banks of the western and southern states, where the demand for money for moving the crops is most constant, can be met. The secretary said it would not be practicable to have a similar circulation.

Uncle Sam's 2 per cent bonds, which are security for most of the money, will be sold by the treasury department. The secretary said the government will be able to advance the money at a rate of 2 per cent, which is the highest rate that the government can pay. THORNTON ABRAHAMS FREE SUGAR SLECTION

Tell Congress He Cannot Support Administration Tariff Measure

WASHINGTON, July 31.—Democracy of the senate, who stand pledged to vote for the Underwood-Simmons tariff bill, listened today to one of their number who has repudiated the administration measure because of the free sugar plank. Senator Thornton of Louisiana, who is pictured in the illustration, denounced the policy of free sugar as undemocratic, and characterized his party's action as a "bait" and a "chance."

"I am not false to principles of the Democratic party," said the Louisiana senator, "in refusing to follow it along the strange and dangerous pathway it is now pursuing with regard to the tariff on sugar. I am true to their principles, and it is the Democratic party itself that is seeking to depart from them."

WARLIKE MEXICO FRIGHTENS AMERICAN BARONESS VON MILLER. The continued revolutionary outbreaks on the part of the various political factions in Mexico have caused Baroness Emily von Miller, daughter of Charles D. Barney, the Philadelphia banker, to flee that strife-stricken country with hand baggage only. According to the business lawlessness rules the Mexican city under the Mexican regime and that the rule of might is right prevails in all other territory of the country. The baroness declares that Americans who have been in Mexico for years expect that the country is now in a condition of lawlessness.
